SUMMARY

Results-driven Full Stack Developer and IT Professional with 5+ years of hands-on experience spanning software development, infrastructure management, and field IT support. Proven ability to build modern web applications, administer Windows Server environments, deploy POS systems, and solve complex technical challenges across diverse client environments. Bilingual in English and Spanish.

EXPERIENCE

Tecnica Systems — Miami, FL

Current

IT Field Technician / Helpdesk Specialist / Project Manager

- Deploy, configure, and service POS systems across local supermarket chains, ensuring minimal downtime and operational continuity.
- Provision servers and workstations — OS installation, software deployment, hardware configuration, and domain integration.
- Administer and optimize client databases, ensuring data integrity and consistent system performance.
- Troubleshoot hardware failures, LAN/WAN connectivity issues, and configure network equipment to restore client infrastructure.
- Manage Group Policy Objects (GPOs) and Active Directory across Windows domains to enforce security policies and standardize environments.

ePhone Solutions — Miami, FL

IT Technician

- Diagnosed and repaired smartphones, tablets, and computers — screen replacements, battery swaps, and component-level repairs.
- Provided technical customer support and managed inventory and sales of accessories and replacement parts.
